

Permanently Attached Flag Systems

FFS-1 Folding Flag System

This permanently attached folding flag system insures that flags will always be handy and ready to deploy. Rotate flags from their storage position to the display position for use, reverse for storage. Flags are 18" x 18" blaze orange vinyl coated nylon on 1" wide fiberglass staffs. FFS-1 has 2 flags, FFS-13 has 3 flags.

FFS-2 Folding Flag System

Designed to allow permanently mounted warning flags to be quickly locked in place, flags deploy by rotating into the display position and sliding the clip down. Reverse for storage. Flags are 18" x 18" blaze orange vinyl coated nylon on 1" wide fiberglass staffs. FFS-2 has 2 flags, FFS-23 has 3 flags.

Flag Holders for Detachable Flags With Round Staffs

4

These flagholders are made of zinc plated steel and are designed for use with flags that have a 3/4" round staff. See page 33.

- 1 - FHUR** - Has a front and back plate that clamp together with four nuts and screws allowing the flagholder to be attached to the vertical rib of a roll-up sign without drilling a hole through the rib. Displays three flags.
- 2 - RL-FH3** - Has a channel shaped plate and a single hole allowing it to be attached to the vertical rib of a roll-up sign with a single nut and bolt, a 1/4" hole in the vertical rib is required. Displays three flags.
- 3 - FH3010** - This is flagholder comes installed on our full size sign stands, such as the TF18, and may be attached with screws to replace damaged units or added to rigid signs, barricades, or posts. Displays three flags.
- 4 - FH-STABLOCK** - Designed for use with the Fold and Roll™ sign system, this flagholder sockets into the 1" square vertical tube and locks in place with a spring button. Displays two flags.
