

# B4DH-DB

Detached Base High Intensity B Light

## FACT SHEET

**Detached base B-Light reduces the time, expense, and danger associated with changing batteries on sign mounted lights in work zones.**

**B4DH-DB** shown with 48" roll-up sign on full size sign stand

• **Incorporates all of the features of our B4DH light but with a detached base.**

- Keeps the battery case at ground level with lightweight (1 lb.) lens section mounted at the top of the sign.
- 14' cable allows the lens to be attached at the top of any sign system.
- Brackets are available to mount lens section to the top of a full size sign stand or directly to a roll-up or rigid sign.

- Exceeds I.T.E. and MUTCD standards.
- Tested in an approved independent laboratory to I.T.E. Type B requirements.
- Visor eliminates sun glare.
- Select from 3 modes: Flashing/Dim, Flashing/No Dim, or Off.
- Light dims 50% at night greatly extending battery life.
- Available with amber lens.
- Operates on two or four alkaline "D" cell batteries (not included).
- Lenses molded from UV stabilized polycarbonate.
- Case is high impact polypropylene.
