

FFS-2 - Folding Flag System

FACT SHEET

Never loose your flags again!

The **FFS-2** folding flag system is a steel bracket with 2 attached 18" x 18" vinyl flags. It allows the permanent attachment of a double flag system to 36" and 48" roll-up signs. Flags roll up with the sign for storage and are always available for quick deployment. Sliding clips quickly lock flags in their open positions left and right at an approximate 40° angle.

The **FFS-2** folding flag system may be added to existing roll-up signs that are equipped with a 1-1/4" wide vertical rib. A single nut and bolt attaches the system to the rib near the top (1/4" hole required).

The **FFS-2** folding flag system is also available installed on new signs by adding "**FFS**" to the sign part number. For example, RUR48-100FFS would be a 48" reflective roll-up sign with ribs, complete with the **FFS-2** folding flag system installed and ready for use.
