AC4D-NL D-Cell LED

- The **AC4D** Series exceeds ITE standards and MUTCD visibility specifications.
- LED light source operates on 2 or 4 D-cell batteries (not included).
- Three modes of operation, Flash (**Type A**), Steady-Burn (**Type C**), and Off.
- Equipped with a photocell which turns light on and off at dawn and dusk.
- Optically correct polycarbonate lens, high impact case, and stainless steel contacts.
- Tested by a Coast Guard approved laboratory.
- Lightweight, may be self-certified for compliance with NCHRP-350 crash test standards.
- **AC4D-NL** has an amber lens with case color choices of orange, blue, green, and black.
- **AC4D-RL** comes with a red lens and yellow case.
- **MAC4D** comes with a mono-directional lens and yellow case.
- **MAC4D-DB** is the same as MAC4D but features a detached base design for safe and easy battery maintenance when lights are mounted out of reach on signs, stands, or posts.
- Each light supplied with hardware: bolts, switch pins, and wrench.
- Bolt protectors available at extra cost.
- Standard package: 10 lights per carton. Carton weight: 17 lbs.
