DF3000P*

DynaFlex™ compact stands feature steel and aluminum construction for durability and a long service life. Dual heavy duty torsion springs provide stability in gusty wind conditions.

The DynaFlex™ series of compact stands display either standard roll-up signs or our popular Fold and Roll™ signs 12" off the ground. The **DF4503** displays standard roll-up signs 60" off the ground.

- All DynaFlex™ stands are MUTCD and NCHRP-350 compliant.
- DynaFlex™ compact stands offer models to hold a variety of roll-up signs: standard roll-up, Fold & Roll™, and post and tube style.
- Heavy duty steel torsion spring system provides a smooth, gliding reaction to wind gusts - no whipping action.
- DF3000 series stands have 22" legs that telescope to 38".
