

Ladder Safety and Utility Tools

Laddermate™ Ladder Stabilizing Strap

Laddermate™ is a unique ladder safety product specifically designed to stabilize a straight or extension ladder when used on a utility pole (or other cylindrical object such as a light pole, piling, I-beam post, etc.). When properly used, Laddermate™ effectively eliminates the destabilizing "twisting" motion most responsible for ladder-on-pole mishaps. Because Laddermate™ is so quick and easy to use, it makes elaborate, time-consuming rope lash methods obsolete. The first telephone operating companies to fully implement Laddermate™ found that ladder related accidents dropped sixty percent!

LM100 Bottom Strap 1200

- Meets OSHA requirements for ladder safety.
- Independent laboratory tested.
- Specially woven military specification canvas material with mildew inhibitors and wear indicator thread imbedded in the webbing.
- Reliable military specification hardware.

LMB Laddermate™ Storage Bag

Heavy duty mesh bag stores and protects straps.

Zipper closure.

- **LMB** - Bag only
- **LMBH** - Bag w/Hook

LM200 Top Strap 1200

The Laddermate™ top strap provides an extra level of safety and stability when used with the **LM100**. **LM200** quickly secures the top of the ladder to a pole or strand.

- Meets OSHA requirements for ladder safety, laboratory tested.
- Special red nylon webbing material.
- Reliable military specification hardware.

Ladder Leveling Wedge

Durable hardwood construction, painted finish. Hardened steel feet provide non-slip footing on slippery or uneven terrain.

#8889 - Ladder Leveling Wedge

Pruner Handles and Accessories

Thick fiberglass tubing make these handles the strongest, lightest, and most durable professional pruner handles available. Special surface treatment prevents "blooming" of glass fibers if dented. The seamless aluminum ferrules mate with all standard attachments and can be used together with standard 1 1/4" diameter wood handles.

- | | |
|------------|--|
| 820 | Fiberglass Extension Section - 1 1/4" x 6' |
| 830 | Fiberglass Extension Section - 1 1/4" x 3' |
- NO DIELECTRIC STRENGTH-

Octagon shaped wood handles are fitted with interlocking seamless aluminum ferrules. Handles are provided in various lengths and configurations to fit virtually any task. Both extension sections and handles are 1 1/4" diameter and mate with fiberglass sections. Long handles are one piece with one end tapered for head.
